LIST OF CONTENTS

NUMBER 1

PART SPECIAL ISSUE (pp. 1-62)
Keynote Lectures "*ISEK 2002 Congress*"

Mechanisms that contribute to differences in motor performance between young and old adults
R. M. Enoka, E. A. Christou, S. K. Hunter, K. W. Kornatz, J. G. Semmler, A. M. Taylor and B. L. Tracy 1

Interpretation of EMG changes with fatigue: facts, pitfalls, and fallacies
N. A. Dimitrova and G. V. Dimitrov 13

The linear electrode array: a useful tool with many applications
R. Merletti, D. Farina and M. Gazzoni 37

Motor mechanisms of balance during quiet standing
D. A. Winter, A. E. Patla, M. Ishac and W. H. Gage 49

Cortical reorganization in training
Y. Mano, T. Chuma and I. Watanabe 57

Regular Papers

Crosstalk in surface electromyography of the proximal forearm during gripping tasks
J. P. M. Mogk and P. J. Keir 63

Measuring movement irregularity in the upper motor neurone syndrome using normalised average rectified jerk
J. A. Cozens and B. B. Bhakta 73

EMG frequency content changes with increasing force and during fatigue in the quadriceps femoris muscle of men and women
M. Bilodeau, S. Schindler-Ivens, D. M. Williams, R. Chandran and S. S. Sharma 83

Motor unit activation patterns during isometric, concentric and eccentric actions at different force levels
V. Linnamo, T. Moritani, C. Nicol and P. V. Komi 93

Announcement

NUMBER 2

Reliability of burst superimposed technique to assess central activation failure during fatiguing contraction
E. Dousset and Y. Jammes 103

Continuous, intermitted and sporadic motor unit activity in the trapezius muscle during prolonged computer work
D. Zennaro, T. Läubli, D. Krebs, A. Klipstein and H. Krueger 113

Simulation analysis of the ability of different types of multi-electrodes to increase selectivity of detection and to reduce cross-talk
G. V. Dimitrov, C. Disselhorst-Klug, N. A. Dimitrova, E. Schulte and G. Rau 125

Amplitude and spectral characteristics of biceps Brachii sEMG depend upon speed of isometric force generation
P. Sbriccoli, I. Bazzucchi, A. Rosponi, M. Bernardi, G. De Vito and F. Felici 139

The effects of precision demands during a low intensity pinching task on muscle activation and load sharing of the fingers
B. Visser, M. P. de Looze, D. J. H. E. J. Veeger, M. Douwes, L. Groenesteijn, E. de Korte and J. H. van Dieën 149

Knee extensor torque and quadriceps femoris EMG during perceptually-guided isometric contractions
D. M. Pincivero, A. J. Coelho, R. M. Campy, Y. Salfetnikov and E. Suter 159

The effect of head position, electrode site, movement and smoothing window in the determination of a reliable maximum voluntary activation of the upper trapezius muscle
L. McLean, M. Chislett, M. Keith, M. Murphy and P. Walton 169

Lower extremity muscle activities during cycling are influenced by load and frequency
B. S. Baum and L. Li 181

Quantification of concentric-needle-induced insertional activity by turn/amplitude analysis
J. Finsterer and A. Fuglsang-Frederiksen 191

Electromyographic responses to prescribed mastication
E. K. Kemsley, M. Defernez, J. C. Sprunt and A. C. Smith 197

NUMBER 3

Trunk muscle onset detection technique for EMG signals with ECG artefact
G. T. Allison 209

Short-term adaptations in co-ordination during the initial phase of learning manual wheelchair propulsion
S. de Groot, H. E. J. Veeger, A. P. Hollander and L. H. V. van der Woude 217

Muscle co-activation around the knee in drop jumping using the co-contraction index
E. Kellis, F. Arabatzi and C. Papadopoulos 229

The sit-up: complex kinematics and muscle activity in voluntary axial movement
P. J. Cordo, V. S. Gurfinkel, T. C. Smith, P. W. Hodges, S. M. P. Verschueren and S. Brumagne 239

Gender dependent EMGs of runners resolved by time/frequency and principal pattern analysis
V. von Tscharner and B. Goepfert 253

Evolution in impedance at the electrode-skin interface of two types of surface EMG electrodes during long-term recordings
D. J. Hewson, J.-Y. Hogrel, Y. Langeron and J. Duchêne 273

Test–retest reliability of EMG and peak torque during repetitive maximum concentric knee extensions
B. Larsson, S. Karlsson, M. Eriksson and B. Gerdle 281

Guidelines for the intramuscular positioning of EMG electrodes in the semispinalis capitis and cervicis muscles
M. Kramer, I. Schmid, S. Sander, J. Högel, R. Eisele, L. Kinzl and E. Hartwig 289

A pilot study on the effect of oral contraceptives on electromyography and mechanomyography during isometric muscle actions
S. M. Drake, T. Evetovich, C. Eschbach and M. Webster 297

NUMBER 4

SPECIAL ISSUE

Muscle Function and Dysfunction in the Spine

Muscle function and dysfunction in the spine
J. Cholewicki, J. H. van Dieën and A. B. Arsenault 303

Surface electromyography assessment of back muscle intrinsic properties
C. Larivière, A. B. Arsenault, D. Gravel, D. Gagnon and P. Loisel 305

Assessment of low back muscle fatigue by surface EMG signal analysis: methodological aspects
D. Farina, M. Gazzoni and R. Merletti 319

Trunk muscle activation in low-back pain patients, an analysis of the literature
J. H. van Dieën, L. P. J. Selen and J. Cholewicki 333

Coordination of muscle activity to assure stability of the lumbar spine
S. M. McGill, S. Grenier, N. Kavcic and J. Cholewicki 353

Pain and motor control of the lumbopelvic region: effect and possible mechanisms
P. W. Hodges and G. L. Moseley 361

Clinical spinal instability and low back pain
M. M. Panjabi 371

Muscular dysfunction elicited by creep of lumbar viscoelastic tissue
M. Solomonow, R. V. Baratta, B.-H. Zhou, E. Burger, A. Zieske and A. Gedalia 381

Spinal stiffness increases with axial load: another stabilizing consequence of muscle action
I. A. F. Stokes and M. Gardner-Morse 397

Standards for Reporting EMG Data I

NUMBER 5

Simulation analysis of the ability to estimate motor unit propagation velocity non-invasively by different two-channel methods and types of multi-electrodes
T. I. Arabadzhiev, G. V. Dimitrov and N. A. Dimitrova 403

Use of surface EMG for studying motor unit recruitment during isometric linear force ramp
J.-Y. Hogrel 417

Is the coactivation of biceps femoris during isometric knee extension affected by adiposity in healthy young humans?
G. De Vito, D. McHugh, A. Macaluso and P. E. Riches 425

Changes in contractile properties and neuromuscular propagation evaluated by simultaneous mechanomyogram and electromyogram during experimentally induced hypothermia
T. Kimura, T. Hamada, L. Massako Ueno and T. Moritani 433

Evidence of long term muscle fatigue following prolonged intermittent contractions based on mechano- and electromyograms
K. Søgaard, A. K. Blangsted, L. V. Jørgensen, P. Madeleine and G. Sjøgaard 441

Mechanomyographic and electromyographic responses of the triceps surae during maximal voluntary contractions
N. Miyamoto and S. Oda 451

An estimation of the influence of force decrease on the mean power spectral frequency shift of the EMG during repetitive maximum dynamic knee extensions
J. S. Karlsson, N. Östlund, B. Larsson and B. Gerdle 461

Posture-dependent trunk extensor EMG activity during maximum isometrics exertions in normal male and female subjects
A. L. Roy, T. S. Keller and C. J. Colloca 469

The validity and reliability of surface EMG to assess the neuromuscular response of the abdominal muscles to rapid limb movement
P. Marshall and B. Murphy 477

Changes in landing biomechanics during a fatiguing landing activity
M. L. Madigan and P. E. Pidcoe 491

NUMBER 6

Muscle fiber conduction velocity estimation by using normalized peak-averaging technique
K. Nishihara, K. Hosoda and T. Futami 499

Influences of illusionary position perception on anticipatory postural control associated with arm flexion
K. Fujiwara, K. Maeda and H. Toyama 509

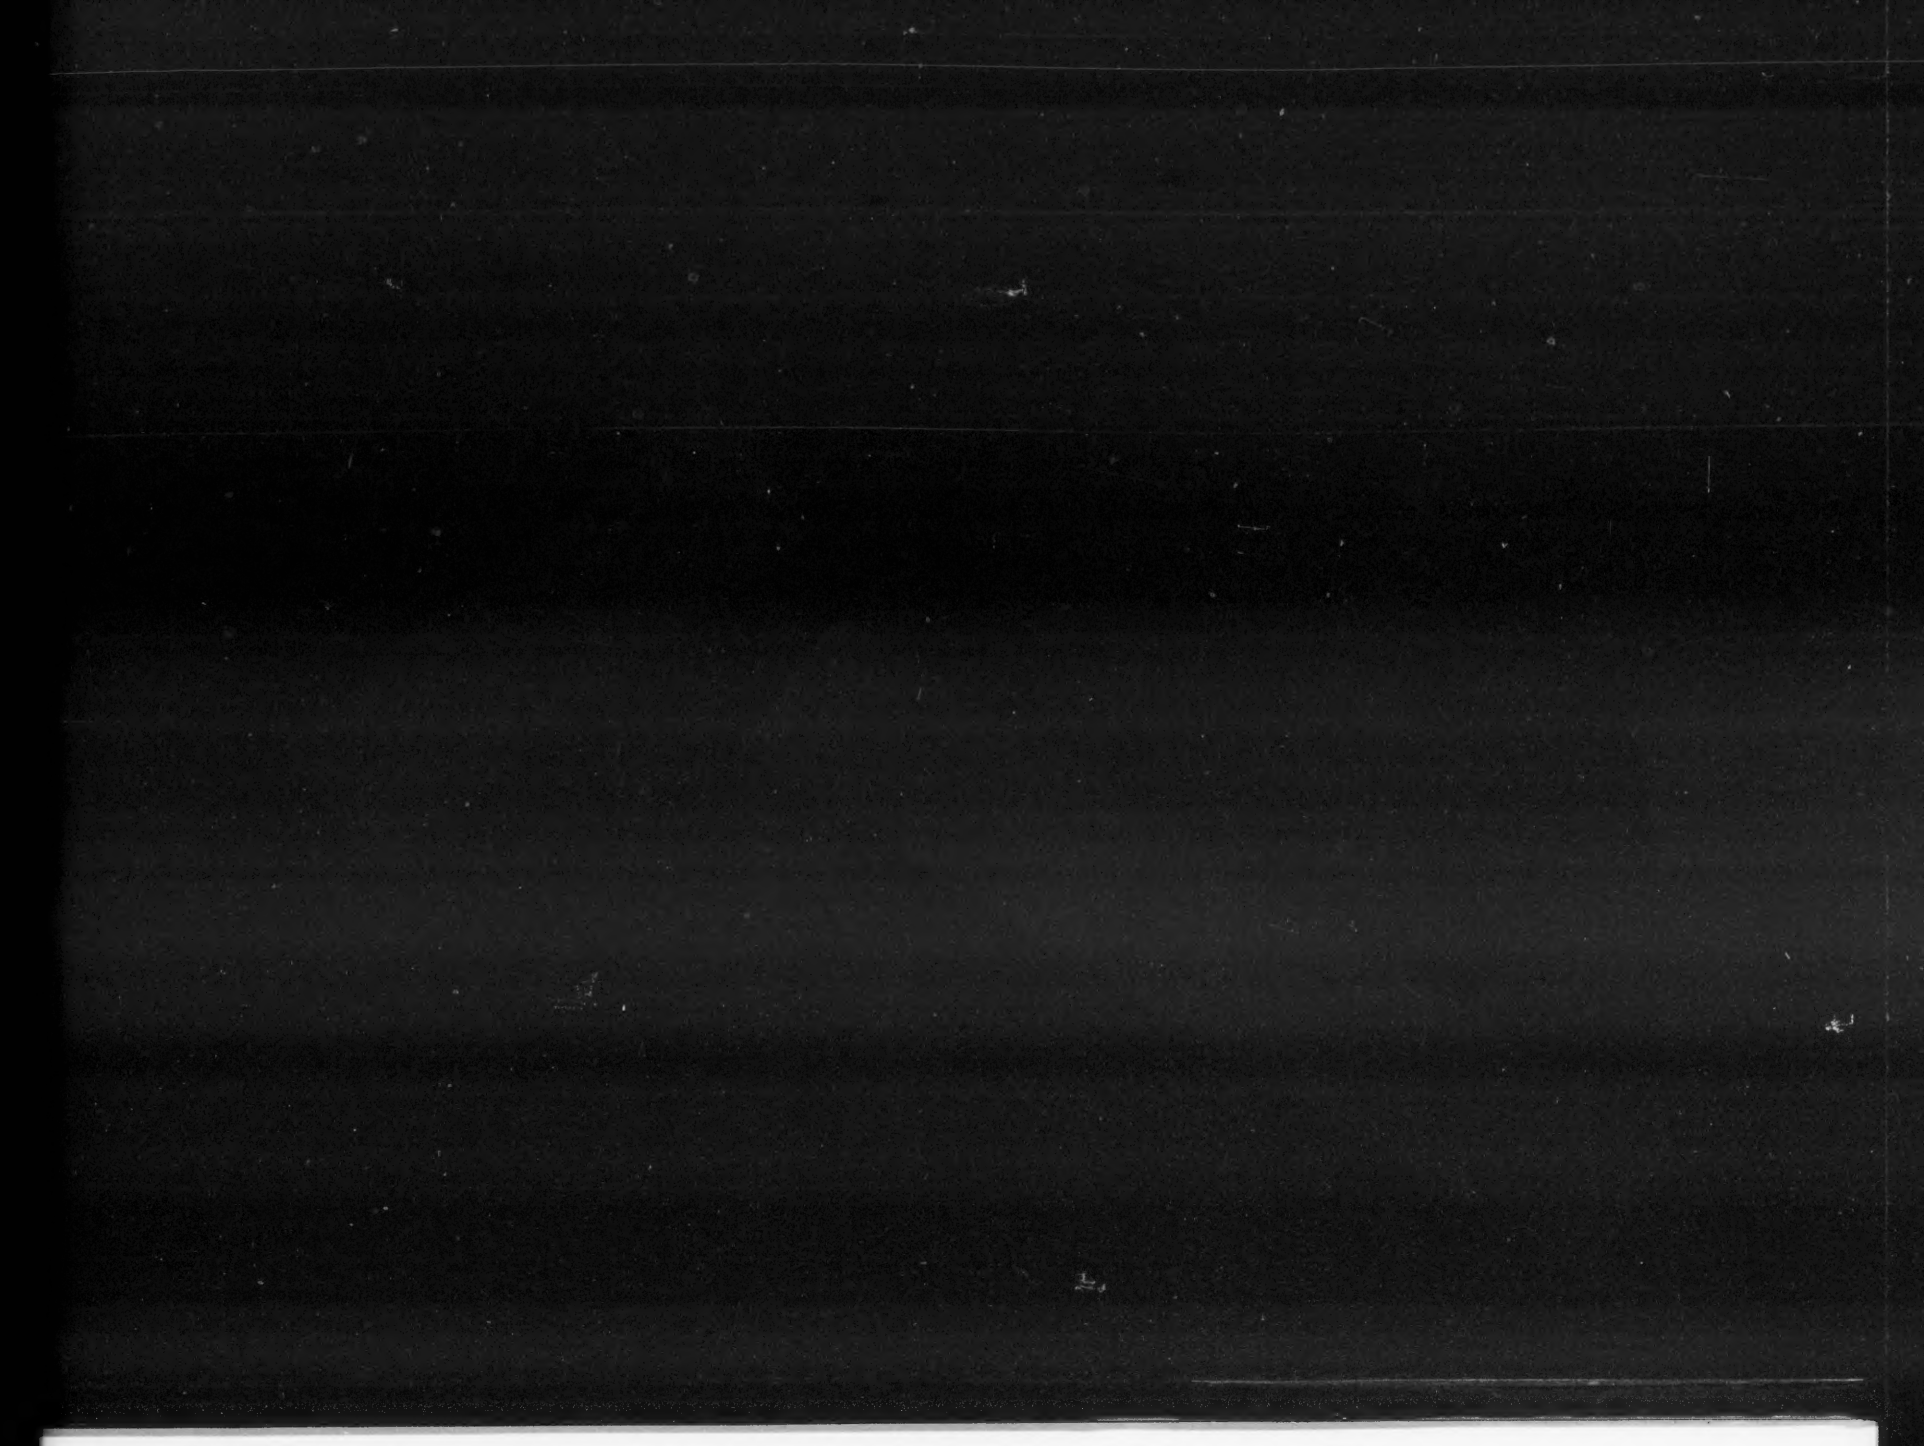
Normalisation of gait EMGs: a re-examination
A. M. Burden, M. Trew and V. Baltzopoulos 519

The effect of falling height on muscle activity and foot motion during landings
A. Arampatzis, G. Morey-Klapsing and G.-P. Brüggemann 533

Muscle activation patterns of selected lower extremity muscles during stepping and cutting tasks
J. Houck 545

Fatigue compensation during FES using surface EMG
J. Winslow, P. L. Jacobs and D. Tepavac 555

Design and responses of Butterworth and critically damped digital filters
D. G. E. Robertson and J. J. Dowling 569

Mathematical models for fatigue minimization during functional electrical stimulation
J. Ding, A. S. Wexler and S. A. Binder-Macleod 575


List of Contents and Author Index for Volume 13, 2003 589
